

Help Doc #2: How to find and Download your Pictures

Step 1:

After you plug in your camera (in the USB port located on the side of your laptop) a message bubble should pop up. When it does, click on this icon.

Step 2:

Then a box like this should appear. You will click on your camera.

HELPFUL TIP!!

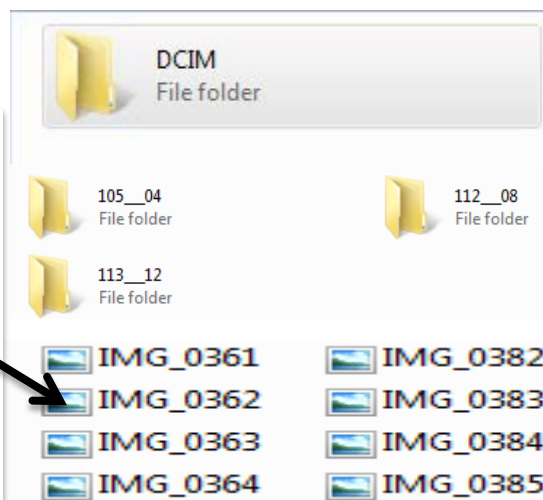

If your shapes show up like this.

You can make them bigger!

First click on this icon. A menu will show up and you can select the size you would like.

Step 3:

Then you will select the files until you find your pictures!

Step 4:

You will then click, hold down, and drag your icon onto the home screen and it will be stored there.
